

Russell Hobbs®

INSTRUCTIONS AND WARRANTY

MODEL NO. RHHD04
RUSSELL HOBBS COMPACT PROFESSIONAL HAIR DRYER

Congratulations on purchasing our Russell Hobbs Compact Professional Hair dryer. Each unit is manufactured to ensure safety and reliability. Before using this appliance for the first time, please read the instruction manual carefully and keep it for future reference.

FEATURES OF THE RUSSELL HOBBS COMPACT PROFESSIONAL HAIR DRYER:

- AC motor hair dryer
- Slim concentrator
- 3 heat / 2 speed settings
- Cool shot function
- Magnetic removable back filter
- Hanging loop
- 1.8metre PVC power cord
- 2000W

IMPORTANT SAFEGUARDS

When using any electrical appliance, basic safety precautions should always be followed including the following:

1. Please read the instructions carefully before using any appliance.
2. Always ensure that the voltage on the rating label corresponds to the mains voltage in your home.
3. Incorrect operation and improper use can damage the appliance and cause injury to the user.
4. The appliance is intended for household use only. Commercial use invalids the warranty and the supplier cannot be held responsible for injury or damage caused when using the appliance for any other purpose than that intended.
5. Avoid any contact with moving parts.
6. This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
7. Children should be supervised to ensure that they do not play with the appliance.

8. Check the power cord and plug regularly for any damage. If the cord or the plug is damaged, it must be replaced by the manufacturer or a qualified person in order to avoid an electrical hazard.
9. Do not use the appliance if it has been dropped or damaged in any way. In case of damage, take the unit in for examination and/or repair by an authorised service agent
10. To reduce the risk of electric shock, do not immerse or expose the motor assembly, plug or the power cord to water or any other liquid.
11. Never immerse the unit in water or any other liquid for cleaning purposes.
12. Remove the plug from the socket by gripping the plug. Do not pull on the cord to disconnect the appliance from the mains. Always unplug the unit when not in use, before cleaning or when adding or removing parts.
13. The use of accessory attachments that are not recommended or supplied by the manufacturer may result in injuries, fire or electric shock.
14. A short cord is provided to reduce the hazards resulting from becoming entangled in or tripping over a longer cord.
15. Do not let the cord hang over the edge of a table or counter. Ensure that the cord is not in a position where it can be pulled on inadvertently.
16. Do not allow the cord to touch hot surfaces and do not place on or near a hot gas or electric burner or in a heated oven.
17. Do not use the appliance on a gas or electric cooking top or over or near an open flame.
18. Use of an extension cord with this appliance is not recommended. However, if it is necessary to use an extension lead, ensure that the lead is suited to the power consumption of the appliance to avoid overheating of the extension cord, appliance or plug point. Do not place the extension cord in a position where it can be pulled on by children or animals or tripped over.
19. This appliance is not suitable for outdoor use. Do not use this appliance for anything other than its intended use.
20. DO NOT carry the appliance by the power cord.
21. Do not leave this appliance unattended during use. Always unplug the unit when not in use or before cleaning.
22. Always operate the appliance on a smooth, even, stable surface. Do not place the unit on a hot surface.
23. Ensure that the switch is in the "Off" position after each use.
24. The manufacturer does not accept responsibility for any damage or injury caused by improper or incorrect use, or for repairs carried out by unauthorised personnel.

25. In case of technical problems, switch off the machine and do not attempt to repair it yourself. Return the appliance to an authorised service facility for examination, adjustment or repair. Always insist on the use of original spare parts. Failure to comply with the above mentioned pre-cautions and instructions, could affect the safe operation of this machine.

ADDITIONAL SAFEGUARDS

- When the hair dryer is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the hair dryer is switched off.
- For additional protection, the installation of a residual current device (RCD) having a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.
- **WARNING:** Do not use this appliance near bathtubs, showers, basins or other vessels containing water.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.
- The appliance is fitted with overheating protection which cuts out if the appliance overheats for example when the air outlet or inlet is covered. Should the appliance cut out during operation, switch the appliance to the OFF position and wait approximately 5 minutes before switching it on again.
- Never put the appliance down in such a manner that it can fall into water while still connected. If the appliance falls into water, unplug it from the socket before removing it from the water and **DO NOT** use the appliance again.
- This appliance may present a fire hazard; never use petrol, spirit or harsh cleaning agents near or with the appliance.
- This appliance should only be used to dry hair.
- Ensure that the air inlet and outlet is never blocked.
- The appliance heats up during operation, thus the appliance should never be put down near any readily flammable materials.
- Let the appliance cool down before storing it away.
- Never attempt to remove dust or foreign objects from the inside of the appliance with sharp objects.
- Do not wind the connection cable around the appliance as this may damage the cable.

- Never cover the appliance as this may cause heat accumulation.
- Do not touch the hot surface of the appliance as this may present a risk of burning yourself.

For domestic use only.

6. Concentrator nozzle
7. Removable magnetic filter

OPERATING INSTRUCTIONS

DRYING HAIR

The ion function reduces static charge and improves natural shine. The longer the ion function is activated, the greater the reduction of the static loading.

Temperature selection depends on:

- How sensitive your scalp is to heat
- Your type of hair
- Degree to which your hair is wet

STYLING WITH CONCENTRATOR NOZZLE

- To style your hair, fit the concentrator nozzle onto the appliance and press firmly until it clicks into place.
- The concentrator nozzle can now be turned to the required position on the appliance without it detaching.
- Begin styling your hair from the back, working forwards and upwards towards the crown.
- Divide the hair into sections and direct the airflow along the hair shafts from the roots to the ends, to give a smooth, professional finish to the hair.
- As soon as you have finished drying and styling individual sections of hair, strands still wound over the brush can be cooled down by pressing the cool shot button.

CLEANING AND MAINTENANCE

- This appliance is for household use only and is not user-serviceable.
- Do not open or change any parts by yourself. Please refer to a qualified electrical service department or return to the supplier if servicing is necessary.
- Always remember to unplug the unit from the electrical outlet when not in use and before cleaning. Ensure that the speed control is set to "0".
- It is much easier to clean the accessories directly after they have been used. Wash them in warm, soapy water, rinse and dry well.
- The body of the appliance and the stand should be cleaned with a damp cloth. Do not let water enter the appliance or the stand.

- Do not use bleach or other abrasive substance or solvents to clean your appliance as it can be damaging to the finish. To remove stubborn spots/marks, wipe the surfaces with a cloth slightly dampened in soapy water or mild non-abrasive cleaner. Rinse and dry with a clean, dry, soft cloth.
- Do not immerse the appliance in water or any other liquid, or hold it under a running tap to clean.
- If necessary, use a brush to clean the grill on the air inlet. To remove the grill, press the ledge on the rear cover, turn and open it.
- Clean every 4-5 weeks.

STORING THE APPLIANCE

- Unplug the unit from the wall outlet and clean all the parts as instructed above.
- After use, let the appliance cool off before storing.
- Ensure that all parts are dry before storing.
- Store the appliance in its box or in a clean, dry place away from children.
- Never store the appliance while it is still wet or dirty.
- Never wrap the power cord around the appliance.

SERVICING THE APPLIANCE

There are no user serviceable parts in this appliance. If the unit is not operating correctly, please check the following:

You have followed the instructions correctly

- That the unit has been wired correctly and that the wall socket is switched on.
- That the mains power supply is ON.
- That the plug is firmly in the mains socket.

If the appliance still does not work after checking the above:

- Consult the retailer for possible repair or replacement. If the retailer fails to resolve the problem and you need to return the appliance, make sure that:

- The unit is packed carefully back into its original packaging.
- Proof of purchase is attached.
- A reason is provided for why it is being returned.

If the supply cord is damaged, it must be replaced by the manufacturer or an authorised service agent, in order to avoid any hazard. If service becomes necessary within the warranty period, the appliance should be returned to an approved Tedelex Trading (Pty) Limited service centre. Servicing outside the warranty period is still available, but will, however, be chargeable.

CHANGING THE PLUG

Should the need arise to change the fitted plug, Follow the instructions below.

This unit is designed to operate on the stated current only. Connecting to other power sources may damage the appliance. Connect a three-pin plug as follows:

The wires in this mains lead are coloured in accordance with the following code:

Green/Yellow	= Earth
Blue	= Neutral
Brown	= Live

**PLEASE AFFIX YOUR PROOF OF PURCHASE/RECEIPT HERE
IN THE EVENT OF A CLAIM UNDER WARRANTY THIS RECEIPT MUST BE PRODUCED.**

W A R R A N T Y

1. Tedelex Trading (Pty) Limited ("Tedelex") warrants to the original purchaser of this product ("the customer") that this product will be free of defects in quality and workmanship which under normal personal, family or household use and purpose may manifest within a period of 1 (one) year from the date of purchase ("warranty period").
2. Where the customer has purchased a product and it breaks, is defective or does not work properly for the intended purpose, the customer must notify the supplier from whom the customer bought the product ("the supplier") thereof within the warranty period. Any claim in terms of this warranty must be supported by a proof of purchase. If proof of purchase is not available, then repair, and/or service charges may be payable by the customer to the supplier.
3. The faulty product must be taken to the supplier's service centre to exercise the warranty.
4. The supplier will refund, repair or exchange the product in terms of this warranty subject to legislative requirements. This warranty shall be valid only where the customer has not broken the product himself, or used the product for something that it is not supposed to be used for. The warranty does not include and will not be construed to cover products damaged as a result of disaster, misuse, tamper, abuse or any unauthorised modification or repair of the product.
5. This warranty will extend only to the product provided at the date of the purchase and not to any expendables attached or installed by the customer.
6. If the customer requests that the supplier repairs the product and the product breaks or fails to work properly within 3 (three) months of the repair and not as a result of misuse, tampering or modification by or on behalf of the customer, then the supplier may replace the product or pay a refund to the customer.
7. The customer may be responsible for certain costs where products returned are not in the original packaging, or if the packaging is damaged. This will be deducted from any refund paid to the customer.
